

APL8-1000 Screw Drive Platform Lift

Meet the APL8-1000

The APL8-1000 Screw Drive Platform Lift uses an ultra-reliable and low-maintenance self-sustaining nut and screw drive system. It is robust, reliable, and designed for maximum flexibility.

The APL8-1000 supports up to 55 different platform sizes for building regulation compliance. With a shaft pit of only 110mm, we provide a lift that fits the exact needs of your building.

Every APL8-1000 comes with a modern full-height platform back complete with in-built lighting.

Installation is a breeze thanks to its innovative and intuitive design, taking only **2-4 days**.
